

# Maxence Poutord

## Software Engineer

I'm Maxence, a French Software Engineer with 10 years of experience developing web-based applications. I am a dedicated, hardworking, ambitious person that gets things done, both on my own initiative and within a team. I enjoy challenges and I am not afraid of getting my hands dirty. Because knowledge sharing matters to me, I spend a non-negligible part of my time sharing things through blog posts, mentoring sessions or conferences.

## About

French, 32 years old  
+353 83 866 7354  
✉ hello@maxpou.fr  
🌐 maxpou.fr  
🐦 twitter.com/\_maxpou  
🐙 github.com/maxpou  
📄 linkedin.com/in/maxpou

## Skills

### Proficient

JavaScript  
Vue.js  
Git  
Testing (Jest&Testing library)  
Web Accessibility (A11Y)

### Comfortable

React.js  
Gatsby.js  
CI/CD  
Web Performances  
Node.js  
TypeScript  
GraphQL

### Familiar

Docker  
Firebase  
Functional Programming

## Languages

### Advanced

English

### Native

French

### Intermediate

Spanish

## Interests

Canioning (I guide group), hiking, cooking, travelling (mostly asia), video games (Age of Empire II).

## Highlights

- Write technical blog posts in French & English (see [maxpou.fr](https://maxpou.fr))
- Mentor junior developers and people who want to retrain as a developer
- Tech trainer and public speaker (see [maxpou.fr/speaking](https://maxpou.fr/speaking))
- Open sources lover and occasional contributor (see [github.com/maxpou](https://github.com/maxpou))

## Experience

### Senior Software Engineer

May 2021 - Present  
Orderfox, Remote (Europe)

Migrated a web application to Typescript/React  
Led the migration of the main application from a REST-style to GraphQL

### Senior Software Engineer

May 2018 - May 2021  
VSware, Remote (Europe/Asia)

Improved the frontend infrastructure of a massive Vue.js application (~5k vue&js files / ~650k lines of codes). Frontend relies on a big monorepo (~40 packages)

Software designed and planned major architecture changes towards micro-frontends

Introduced and maintaining a testing culture (from 0 to 3.1k unit & integration tests)

Working on accessibility (A11Y) to meet WCAG AA conformance

Maintaining decent performances optimisation

Mentoring junior developers

### Software Engineer

November 2016 - April 2018  
Hostelworld, Dublin, Ireland

Co-led the frontend migration of hostelworld.com from jQuery to Vue.js.

Architecture definition, development and maintenance of the main website (back+front)

Train and mentor team to modern JavaScript and Vue.js

### Consultant

May 2015 - April 2016  
Conserto, Nantes, France

Architecture definition, development and maintenance of various web applications

Build proof of concepts/research and development

Draft and give training in PHP, Symfony2

## Web Developer/Project Manager

October 2011 - January 2015

Energy Formation (ENGIE Group), Nantes, France

Creation of a web application based on the Symfony2 Framework  
(expose/consume API)

Led a project which aims to reduce paper consumption by supplying  
dematerialized documentation to customers

## Education

### Architecte Logiciel / Software Architect (master degree)

2013 - 2015

ENI Ecole Informatique, St Herblain, France

### Concepteur Développeur Informatique / IT developer designer (bachelor degree)

2011 - 2013

ENI Ecole Informatique, St Herblain, France
